

December 2025

TriMet Ridership Summary

Systemwide (BUS + MAX + WES)

- Dec-25 weekly ridership increased $\uparrow 1.3\%$ over Dec-24. (15.1K boardings)

BUS

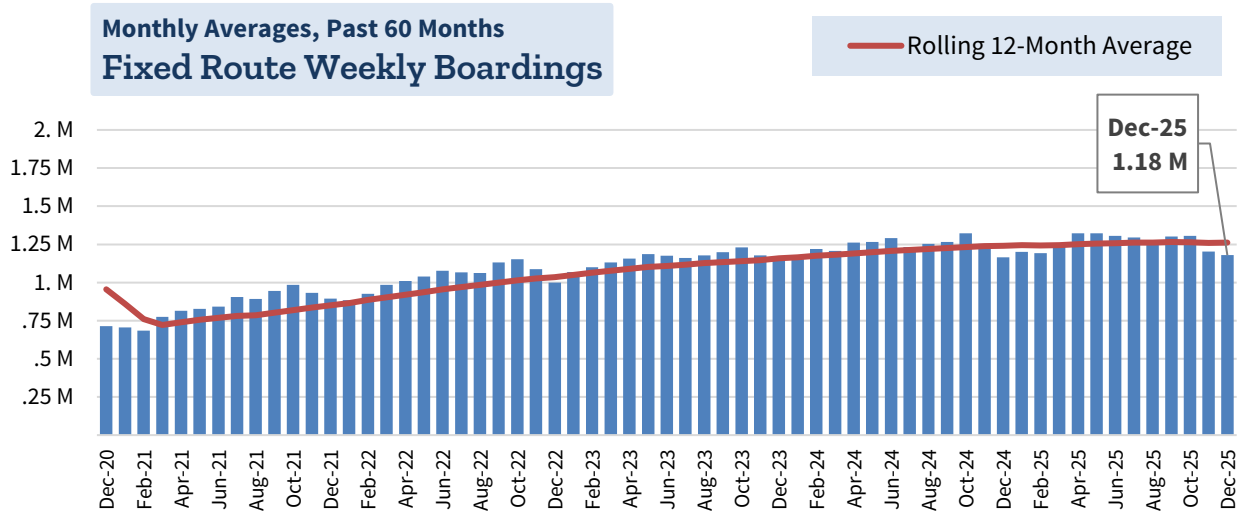

- Dec-25 weekly ridership increased $\uparrow 2.7\%$ over Dec-24. (20.6K boardings)

MAX

- Dec-25 weekly ridership decreased $\downarrow 0.9\%$ from Dec-24. (-3.5K boardings)

WES

- Dec-25 weekly ridership increased $\uparrow 7.8\%$ from Dec-24.

A rolling 12-Month average line was added to give perspective on how weekly averages of each month compare to average performance of the last 12 months. December behavior is expected, that is, December is a month of lower Ridership values due to the holidays, so we expect the rolling average line to be above the bar.
